

# PHARMACEUTICAL COMPLIANCE CONGRESS **CANADA**

## Industry Best Practices and Strategies for Managing and Enhancing Ethics and Integrity Programs

**JUNE 11-12, 2019 | TORONTO, CANADA**

**PCC CANADA 2019** will feature multi-stakeholder panel sessions, deep dive workshops, live polling, small group collaborative working sessions, luminary addresses and case presentations to address critical issues facing Canadian compliance leaders, including:

- Achieve commercial compliance readiness — Redesign operations to support and accommodate transparency reporting
- Manage risk with patient support programs — Identify common practices for executing on patient support programs and identify key risk areas
- Ensure Fair Market Value to manage risk — Examine FMV methodologies, review common risk areas and best practices
- Understand the key components of running OLAs compliantly — Explore strategies to mitigate risk and ensure that OLAs do not go off-label
- Engage with key internal stakeholders to manage compliance risk and progress the compliance function into a strategic advisory role
- Utilize data driven monitoring to manage third-party risk — Discuss how to assess vendor effectiveness and ensure transparency in their processes
